About Carlos Lischetti

Carlos Lischetti is coming to Istanbul, Turkey with the invitation of Mutlu Dükkan from 9th of April till 12th of April 2015 to teach us his amazing modeling skills.

Carlos grew up in Rosario, Argentina and began cake decorating 24 years ago in 1990. He has always been self-motivated and self-taught to try and learn as much as he could from the world's top sugar crafters. His ever-growing curiosity led him to take a few courses in Buenos Aires, Paris and London. He then got the chance to teach everything he had learned over those years in several schools in Argentina and Europe. He is currently working as a contributor to "Cakes & Sugarcraft Magazine" and he has published his first book: "Animation in Sugar".

Carlos Lishetti is now coming to Istanbul, Turkey with the invitation of Mutlu Dükkan from 9th of April till 12th of April.

Who May Attend to Carlos Lischetti's Modeling Classes?

No need to have advanced sugar modeling experience to attend Carlos Lishetti's figurine modeling classes. Any beginner level sugar modeling knowledge is sufficient for attendance. Classes are suitable for beginners or those who would like to fine tune their existing skills.

Reservation and Cancellation Policy

Payment must be made in full to reserve your place. **No cancellations.**

Mutlu Dükkan has the right to cancel or postpone any of the above listed Carlos Lischetti's class that does not get enough participation. In case of any cancellation or postponement the new date will be informed to the participant. If the new date is not suitable for the participant, the payment is refunded.

Carlos Lischetti's Special Note

Participants must be aware that it is not sometimes possible to take home the figurine all in one piece due to drying time. However, they will certainly make every component of the figurine. Carlos Lischetti's classes are mainly focused on learning modeling techniques and the best paste consistency for each individual part of the character. Carlos Lischetti will demonstrate in the class how to assemble components of figurines at home for the best final result.
